RapidShare - Your login-data

Your payment is now being processed by PayPal. We are awaiting the message from PayPal that your payment is completed every minute. **Please wait until this screen shows your login-data!** If you don't want to wait anymore, you may close this window. We will send your login-data to your e-mail address as soon as PayPal notifies us. Unfortunately e-mails are not very reliable nowadays anymore, so we urgently recommend that you wait until we show your login-details. But don't worry, even if some spam-filters or lame e-mail servers drop our mail, our support-team will always be there to help you recovering your account-data.

Account arrived! Please write it down!

Login: 1831181
